Dear Bill,

I want to thank you for the outstanding in-service you gave at our school. My staff and I received the exact information we were looking for. The presentations given by you and your sons were extremely informative. Your terminology, use of film and on-field demonstrations made the learning clear and concise. My staff and I felt very comfortable asking questions and interacting with the clinicians throughout the clinic. I would strongly recommend your services to anyone who asked me. It was the most beneficial clinic experience our staff has ever had.

Thank you

Mark Speckman  
Head Football Coach  
Willamette University
